The **BUV (Basic Utility Vehicle) Ministry** is partnering with **BiblicalMentoring.org** to provide spiritual growth and discipleship training for those involved in BUV operations in English speaking countries.

The goal is to train “disciple-making disciples” – those who will commit to training and mentoring others in their personal networks or those they meet through their work as BUV drivers, managers, mechanics, etc.

Biblical Mentoring has been offering 30-minute weekly training/mentoring phone call sessions for several years with selected trainers in African countries.

This discipleship training initiative was built on a foundation of many years of training people for various ministries.

The training is being offered in collaboration with the BUV Ministry so that those involved with a BUV ministry can help “transform” people while engaged in a transportation enterprise. We work together to identify the trainers to train others.

This training aims to work in cooperation with local churches to help identify local trainers and to equip lay people to be disciple-makers in the marketplace and community.

We have a growing team of Christ-centered servants who learn how to train others by discussing, memorizing and praying Scriptures in one-to-one weekly phone sessions.

This is relational discipleship training with mutual prayer support week after week.

Trainees will gain the necessary skills, knowledge and confidence to become disciple-makers themselves.

The full training plan and verse sets are available at biblicalmentoring.org.
