

## **ACN Business Opportunity**

Ron Lively, M.Div., M.A., ACN Independent Business Owner  
**[lively.acnibo.com](http://lively.acnibo.com)**

Consider the opportunity to own your own online business that offers several residential and business "essential" services that usually saves customers monthly without sacrificing quality. Many name brand companies ask ACN to offer their services.

I will be your sponsor / mentor. My personal ACN business website is **[lively.acnibo.com](http://lively.acnibo.com)**. Each IBO (Independent Business Owner) gets an online store site like this the day they join.

Our team's training site offers excellent recorded and live zoom call training almost daily. You can join a zoom training [call](http://thetrnzoom.com) at **[thetrnzoom.com](http://thetrnzoom.com)** at 7 pm almost every evening (M, T, Th, & Sun) and at 9 am on ~~Saturday~~[SaturdaySaturdays](http://SaturdaySaturdays.com). The leaders teach how to find customers, how to recruit and train IBOs. Go to **[teamrhinonation.com](http://teamrhinonation.com)** for this valuable training.

Treat ACN like a business and it will pay you like a business even for life, as long as you have active paying customers. You must be willing to put in the necessary work, as this is not a get-rich-quick scheme, but a legal and legitimate business opportunity. You own your own business but you don't have to work it alone with help from many mentors.

**Disclaimer:** No one gets paid until you have customers ordering and paying monthly for services. You earn bonuses and then commissions on the services offered.

Currently, the best paying service is Impact Health Sharing (IHS), an effective alternative to health insurance. Customers who use our services such as IHS, mobile phone plans, energy, identity protection, internet services, etc. pay their monthly bills to ACN which generates commissionable income. IBOs, who are the company's sales reps, earn commissions at certain percentages of the commissionable income. Note: the commission is greater for IHS accounts since the cost of this service is much more than other services.

An ACN Independent Business Owner (IBO) is a 1099 independent contractor who receives complete back office support from ACN. As an IBO, you are not an employee of ACN, but rather an independent business owner. You can even sell or will your business one day. You are able to set your own hours and select your own means of operation. You are your own Boss! You gain some freedom in this business. ACN provides a personalized ACN Online Shop (replicated website) which is maintained and updated daily by ACN.

### **Unique Features:**

ACN was founded in 1993 and is privately owned by four entrepreneurs. It is the world's largest seller of telecommunications, energy and essential services for home and businesses – a home-based vehicle for countless individuals to change their lives with more income.

IBOs earn a percentage of customer's bills each month (4 to 20% of the commissionable income). You earn a 4% override of your team's customers. There are some sizable bonuses for your productivity.

This is an ideal opportunity for the right person with an entrepreneurial spirit and some marketing interest. This is also ideal for anyone who values flexibility in their schedule.

Like any business you personally own, you will incur expenses for your business. There is also a benefit to reporting your business expenses on annual tax returns.

You earn monthly residual income for growing your online business. You offer one or more services and then recruit and train others to do the same.

### **Your Cost to Participate:**

The one-time joining fee is \$299 and the monthly business support fee is \$25 for significant services at no extra cost including:
